IT Infrastructure Leader

Senior Technology Leader | Enterprise Systems Strategy | Digital Transformation & Governance

Senior technology leader with 22+ years driving enterprise systems modernization, IT governance, and digital transformation. Proven success in aligning technology strategy with organizational goals, optimizing infrastructure, and leading multimillion-dollar initiatives. Adept at vendor management, budgeting, and building high-performing teams across government and non-profit sectors.

KNOWLEDGE AREAS

IT Infrastructure Management | Enterprise Architecture Strategy | Product Lifecycle Management
| Systems Integration | IT Modernization | Data Governance & Analytics | IT Road mapping |
Cybersecurity | Integration Frameworks | Business-IT Alignment | Application Portfolio Management |
Cross-Functional Team Leadership | Standards Development | Process Automation | Project Management

PROFESSIONAL EXPERIENCE

Program Manager at Tuvli LLC, (5/2024-1/2026)

Program Manager for an Information Technology (IT) services contract for the US Army Human Resources Command (HRC) which included IT Planning; enterprise architecture planning and services; enterprise program and project management; system compliance and governance; enterprise services; systems integration and software testing services; and system configuration and change management.

Notable Contributions:

- Led enterprise architecture initiatives and modernization strategies across 16 mission-critical Army HR applications, aligning technical solutions with compliance frameworks and operational goals.
- Led enterprise technical teams who designed, engineered, and sustained a Rancher Kubernetes environment to facilitate Continuous Integration / Continuous Deployment (CI/CD) pipelines for application microservices orchestration.
- Governed data architecture standards to ensure integrity, interoperability, and adherence to legal/policy directives (LRPs).
- Directed cross-functional teams on \$84M enterprise initiative, aligning technical execution with strategic product goals and performance metrics.
- Served as strategic advisor on IT systems planning, configuration governance, and enterprise services modernization.

Systems Integration Task Lead at Tuvli LLC, (3/2021-5/2024)

Led cross-functional integration initiatives optimizing application delivery and improved user experience by reducing release-cycle defects by 25% through iterative testing, data analysis, and governance frameworks.

Notable Contributions:

- Led agile product delivery for enterprise platforms, collaborating with cross-functional teams to define features and execute implementation plans aligned with stakeholder goals.
- Orchestrated 300+ successful application releases in 2023 by aligning QA processes, ALM tracking, and stakeholder feedback loops.
- Implemented KPI-driven reporting frameworks, increasing visibility into configuration and change management performance across the enterprise

Senior Infrastructure Engineer at ARMA Global, (5/2018-3/2021)

Collaborated with team and department leadership on information technology infrastructure initiatives to keep the organization on the cutting edge of infrastructure and storage technology.

Notable Contributions:

- Designed and deployed scalable VDI and hybrid cloud infrastructure supporting high-security government environments—delivering multimillion-dollar savings in endpoint lifecycle costs.
- Maintained enterprise collaboration architecture (Skype for Business) and administered virtualized environments (VMware, NetApp) for high-availability deployments.
- Authored architecture guidelines for network, storage, and compute components across multiple security enclaves.

Information Protection Technician – North Carolina National Guard, (5/2018-8/2020)

Served as information protection technician and advisor to the Brigade S6 (IT Director) on information assurance programs, associated sub-element programs (computer network defense), and associated personnel at the network, systems, and services level.

Notable Contributions:

- Built a cybersecurity program from the ground up, establishing governance aligned with state and federal standards.
- Engineered endpoint protection solutions leveraging McAfee HBSS/ESM, elevating threat detection and response across 1,000+ hosts in a tactical network.

Education & Certifications:

MS, Information Technology Management - Western Governors University - 2020

BS, Cybersecurity - University of Maryland Global Campus - 2019

Certifications: PMP · CAPM · Security+ CE

Security Clearance: Active Secret
